

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

The Spanish Cabinet Council Takes Favorable Action Upon the Protocol.

CAMBON INSTRUCTED

To Sign the Document Which Will Bring Peace.

SPANIARDS ACT QUICKLY

After Receiving McKinley's Last Note.

Duke Almonzor Says the Peace Commission Will Sit in Paris—Practically No Changes in the Original Condition For Peace—Hostilities Are Expected to Cease as Soon as the Document Is Signed—The American Fleet Off Guantanamo Hears the News With Intense Satisfaction.

Madrid, Aug. 12.—The government received the protocol late last night and the cabinet council met immediately and approved it. The government then wired M. Cambon, empowering him to sign the preliminaries of peace.

Yesterday was diplomatically one of the busiest since the outbreak of the war. There were no fewer than three cabinet councils, in addition to various diplomatic conferences.

Though the text of the protocol was not received until the evening was well advanced, the government had been made fully acquainted with its contents through Paris.

The matter was practically settled at the meeting yesterday afternoon, and the receipt of the actual document, therefore, only required a meeting of the cabinet for a formal acceptance.

Ministers adhere to the statement that the protocol contains no modification of the original terms, but only new suggestions.

They expect it will be signed at Washington today and that a suspension of hostilities will be announced.

Duke Almonzor, Rio, minister of foreign affairs, says that the negotiations for the peace treaty will take place in Paris, but he says the commissioners have not yet been appointed. The terms of the protocol will not be published until the instrument has been signed.

Premier Sagasta and the French ambassador, M. Patenotre, had a long conference last evening and it is believed the ambassador has been authorized to cable the French ambassador at Washington, M. Cambon, authority to sign the peace protocol.

ARMISTICE.

The First Condition of the Protocol, Which Is Declared Immediately.

London, Aug. 12.—The Madrid correspondence of The Daily Mail says: "Al-

though it is denied by the government, it is reported that there is a Carlist armed band now near Soo de Urgel, among the Pyrenees, and that there are three others in the region of Maorizango. All are in small parties, but large enough to cause considerable agitation in the regions named, which are largely Carlist in their sympathies.

"Sixteen soldiers of the Basclera garrison have been arrested in a Carlist club there, and an infantry colonel has been nominated to initiate proceedings against them.

"The chief Carlists in Barcelona disappeared three days ago, their destination being unknown."

SPONTANEOUS OF THE DAILY MAIL SAYS:

"President McKinley accepts the Spanish reply, with slight formal modifications. The first condition of the protocol is an armistice. This will be declared immediately. The conditions are the same as those proposed by President McKinley. Senor Sagasta has cabled M. Cambon an authorization to sign the protocol to which step the queen regent had already given assent.

"The disposition of the Philippines will be the chief point for consideration, and on this the precise intentions of the American government are not known.

"The impression prevails here, however, that the powers will not regard the problem of the Philippines with the same passivity as they showed towards Cuba and Porto Rico.

"The American and Spanish delegates will meet immediately in Paris, the cabinet at Washington urging expedition."

MCKINLEY'S SHORT REPLY

To Spain's Last Note Gave Notice of a More Lengthy One to Follow.

London, Aug. 12.—The Madrid correspondent of The Times says: "The preliminary negotiations are advancing steadily, though perhaps not quite so quickly as could be wished. The short reply from Washington to the last Spanish note, which reached Madrid last evening, must be regarded as merely a forerunner of a more detailed communication that may be expected in the course of the next few days. It says the president will take into consideration all the points raised in the last Spanish note and will embody the conditions as a whole in a formal document, the text of which will be telegraphed to Madrid for acceptance with the least delay possible. Until this latter communication is received it will be impossible to say whether the cortes will be assembled at once or at the close of the negotiations."

PREPARING TO MOVE.

Generals McKee and Sanger Go to Knoxville and Lexington, respectively. Chickamauga Park, Ga., Aug. 12.—The principal order received at Camp Thomas yesterday was one directing Brigadier General McKee and Brigadier General Sanger to proceed at once to the new camp grounds selected for the encampment of the Second and Third divisions of the First corps, respectively. General McKee, commanding the Second division, was ordered to Knoxville, Tenn., and General Sanger, commanding the Third division, was ordered to Lexington, Ky.

General McKee left last evening, while General Sanger expects to leave today. These officers were instructed to arrange all preliminaries at the respective camp grounds for an early movement. It will perhaps be 10 days before any of the regiments are ordered out. It will be decided in the meantime whether the troops will be sent to these points by rail or be required to march the whole of the distance.

General Breckenridge is desirous of having the regiments march the whole of the way. General McKee's division would have to march only about 120 miles, while General Sanger's division would be confronted by a march of about 300 or 350 miles.

PEACE COMMISSION.

Secretary Day and Probably Allison and Gorman Will Be Members.

Washington, Aug. 12.—The near approach to the signing of the protocol has required the discussion of the personnel of the peace commission. There is good authority for the statement that Secretary Day will be at the head of the commission and that two United States senators will be members of it.

Senator Allison of Iowa and Senator Gorman of Maryland, have been prominently mentioned for places on the commission, and it is known that they have been under consideration by the president.

It is not believed by members of the administration that the commission can complete its work in time to cause an extra session of congress to consider legislation, which the treaty of peace will necessitate, although there is a prospect that an extra session of the senate might be called in November to consider the treaty of peace.

CARLISTS

Are Appearing In Armed Bands Near Soo de Urgel, Spain.

London, Aug. 12.—The Biarritz correspondent of The Daily Mail says: "Al-

though it is denied by the government, it is reported that there is a Carlist armed band now near Soo de Urgel, among the Pyrenees, and that there are three others in the region of Maorizango. All are in small parties, but large enough to cause considerable agitation in the regions named, which are largely Carlist in their sympathies.

"Sixteen soldiers of the Basclera garrison have been arrested in a Carlist club there, and an infantry colonel has been nominated to initiate proceedings against them.

"The chief Carlists in Barcelona disappeared three days ago, their destination being unknown."

INTENSE SATISFACTION.

Peace News Received by the Fleet Off Guantanamo.

With the fleet off Guantanamo, via Playa del Este, Aug. 12.—The Press dispatch announcing that the peace protocol had been agreed upon was the first definite news received here regarding the progress of the peace negotiations. Nothing had been received from the navy department or from any other source.

The dispatch caused the most intense

satisfaction throughout the fleet. It is expected that several war ships will soon be able to go north, and the great fleet now lying here is in readiness to be distributed to the various stations.

BULLETIN FROM MILES.

Washington, Aug. 12.—At 1 o'clock this morning the war department posted the following, dated Ponce, Aug. 11, from General Miles to the secretary of war: "Following from Schwan: 'Immediately after repulse yesterday Spanish troops, joined by what were left in Mayaguez, moved in direction of Lares. Have sent scouts in that direction. My command entered Mayaguez at 9 o'clock this morning.'"

Doing a Grand Work.

New York, Aug. 12.—The Red Cross society received the following telegram from Miss Clara Barton yesterday: "Am sending 50 to 100 tons Cuban relief supplies to Baracoa today with troops on steamer San Juan, by courtesy of General Shafter. Twenty tons go to Pinaras by rail. We are doing grand work. Santiago is nearly relieved; will leave for other ports soon."

Will Be Known as Camp Wikoff.

Washington, Aug. 12.—Adjutant General Corbin announces that hereafter the designation of the camp at Montauk Point will be Camp Wikoff, in honor of Colonel Charles A. Wikoff of the Twenty-second United States Infantry, who was killed at the head of his brigade on the first of July at Santiago. This order was issued by direction of the president.

Off For Jacksonville.

Indianapolis, Aug. 12.—The One Hundred and Sixty-first Indiana volunteers left yesterday for Jacksonville, Fla. They marched to the statehouse from Camp Mount where the governor addressed them previous to going aboard the train.

\$17,000 DAMAGES.

Verdict Against Turnpike Company For Causing Death of a Young Girl.

Danville, Ky., Aug. 11.—J. J. Moore of Boyle county, who sued the Stanford Turnpike company for \$200,000 damages for causing the death of his 14-year-old daughter, got a verdict for \$17,000. The turnpike will carry the case through all the courts. The child was killed at the gate near Danville last winter while soldiers were guarding it and while she and her mother were passing.

Robert Beall Dead.

Washington, Aug. 12.—Robert Beall, a book-seller known to nearly all public men and scholars who have lived in Washington, died here late yesterday, aged 61 years. He came of an old Maryland family and had been in the book-selling business from his youth until a short time ago, when he retired with a comfortable fortune, but seriously ill with consumption.

PRESIDENT MCKINLEY

Expected to Have Interesting News For the Cabinet Meeting.

ALGER DENIES A RUMOR

He Did Not Cable Orders For Miles and Merritt to Cease Hostilities—Publication of Such Stories Depreciated—Merritt Under No Restraining Orders as to Manila.

Washington, Aug. 12.—After the close of office hours last evening Secretary Day drove over to the white house and had a half an hour's conference with the president. He stated that no further word had been received from Ambassador Cambon, but admitted that he expected a call from that gentleman today. Certain members of the cabinet expressed the opinion that the president would have some news for that body when it meets today. Officials show no loss of confidence in their original opinion that the Spanish government will authorize M. Cambon to sign the protocol just as it was transmitted from Washington to Madrid.

The naval war board, led by Acting Secretary Allen, called on Judge Day yesterday. It is believed their purpose was to impress upon the secretary the importance of making the surrender of important strategic points at the entrance of harbors, such as Morro castle at Havana harbor, a condition for the cessation of hostilities. It is questionable, however, whether it is not now too late to amend the protocol in its substance as proposed by the war board.

Alger Denies a Rumor.

A rumor was afloat to the effect that Secretary Alger, in anticipation of the beginning of the formal peace negotiations, had cabled General Miles and General Merritt, in Porto Rico and in the Philippines, respectively, orders that looked to a cessation of hostilities. When his attention was directed to this rumor, Secretary Alger promptly pronounced it to be without foundation, and as absurd. The publication of such stories, moreover, was deprecated as tending to encourage the Spanish government to further delay and passive resistance.

As a matter of fact, General Miles seems to be pressing forward with the greatest energy, and a cablegram received from him late yesterday reported the forward movement of General Schwan, in charge of one of the divisions of the American army, and Ernst's brigade is also advancing rapidly along the road to Aibonito and has made what Miles described as a very important capture at Cosmo.

Awaiting the Arrival of the Mononock. Merritt undoubtedly is pursuing his campaign in Luzon. It is stated positively that he is under no restraining orders, but is left entirely to his own discretion as to when and how to attack Manila. Inasmuch as it has been reported from Cavite that he was simply awaiting the arrival of the Mononock, it is presumed this attack will soon follow, if it has not been made already, for the Mononock is about due now at Cavite.

While not quite clear as to General Merritt's purpose in deferring his attack until the vessel arrives it is the opinion of the military officials that his plan is to plant the two monitors, Monterey and Mononock, directly within range of the Manila batteries and if a demand for surrender is refused to batter down those defenses. Only fully armored vessels can be safely employed in such work, hence the delay on account of the nonarrival of the Mononock.

Secretary Alger yesterday cabled to General Miles to apply immediately to the Porto Rican ports captured by him the tariff drawn up by the government for Santiago and other Cuban ports. This is in line with the policy of the war department of extending the American system of tariffs as rapidly as possible over captured territory.

SMOKELESS POWDER

Adapted For the Use of the Springfield Rifles.

Washington, Aug. 12.—The ordnance department of the army has succeeded at last in securing a smokeless powder adapted for use in the Springfield rifle, with which nearly all the volunteer troops are armed. The powder used with the small bore and repeating rifles was too powerful and a special powder had to be procured. This is now coming in from the manufacturers and being turned into fixed ammunition in such quantities as to warrant the belief that even should war continue our soldiers would not be again exposed to the danger encountered at the battle of El Caney, through the betrayal of their presence by the blinding smoke of the Springfield.

Plenty of Good Water. Washington, Aug. 12.—Colonel Miller of the quartermaster's department, who was at the department yesterday, reported that there would be no trouble at all about an abundant water supply at Montauk Point. He said that after passing through the hardpan in drilling wells they struck gravel and found an abundance of good water. Surgeon General Sternberg says there appears to be no trouble whatever about an abundance of water of good quality.

ONE MONTH'S FURLOUGH.

Sick and Wounded Soldiers to Be Allowed to Go Home.

Washington, Aug. 12.—A general order has been issued at the adjutant general's office granting one month's furlough to the sick and wounded soldiers, and transportation to their homes. At the expiration of their furloughs, if fit for duty, the soldiers must report to the nearest army post, camp or hospital for the purpose of being sent to their regiments. Those not fit for duty are required to report to the adjutant general of the army, forwarding their furlough, accompanied by the certificate of a physician stating their condition and probable time of recovery. Neither the cost of transportation, nor commutation of rations, while traveling, will be charged against the soldiers, and sleeping accommodations by rail and the stations by boat will be furnished them. In lieu of rations, the soldier will be paid \$1.50 per day for the necessary number of days' travel.

FOR SICK SOLDIERS.

Movement to Ship Kentucky Doves to Those at Chickamauga.

Bowling Green, Ky., Aug. 12.—Kentucky has now a great many soldiers who are ill in the hospital at Chickamauga, and a movement is on foot to ship them a big lot of nicely dressed doves. This is now the dove season, and the fields are full of them. The plan is to have 16 or 20 men, in squads of four or five, to take one day for hunting, and turn over all the birds to a committee here, who will have them dressed, put on ice and shipped to Chickamauga. These birds at this season of the year are young, juicy and delicious, and will, no doubt, be appreciated by the sick soldiers.

MONTAUK CAMP.

Soldiers Without Shelter, Beds or Good Nourishment.

New York, Aug. 12.—Many of the soldiers at Montauk camp are still without shelter. Detachments of troops continue to arrive and many of those who came yesterday were without shelter last night. There are nearly 50 sick soldiers in the hospital tents who are without comfortable beds or good nourishment. Fresh milk is needed for the typhoid patients. It is stated that arrangements are being made to have an ample supply of milk shipped to the camp every day.

PRESIDENT MCKINLEY

Expected to Have Interesting News For the Cabinet Meeting.

ALGER DENIES A RUMOR

He Did Not Cable Orders For Miles and Merritt to Cease Hostilities—Publication of Such Stories Depreciated—Merritt Under No Restraining Orders as to Manila.

Washington, Aug. 12.—After the close of office hours last evening Secretary Day drove over to the white house and had a half an hour's conference with the president. He stated that no further word had been received from Ambassador Cambon, but admitted that he expected a call from that gentleman today. Certain members of the cabinet expressed the opinion that the president would have some news for that body when it meets today. Officials show no loss of confidence in their original opinion that the Spanish government will authorize M. Cambon to sign the protocol just as it was transmitted from Washington to Madrid.

The naval war board, led by Acting Secretary Allen, called on Judge Day yesterday. It is believed their purpose was to impress upon the secretary the importance of making the surrender of important strategic points at the entrance of harbors, such as Morro castle at Havana harbor, a condition for the cessation of hostilities. It is questionable, however, whether it is not now too late to amend the protocol in its substance as proposed by the war board.

A rumor was affixed to the effect that Secretary Alger, in anticipation of the beginning of the formal peace negotiations, had cabled General Miles and General Merritt, in Porto Rico and in the Philippines, respectively, orders that looked to a cessation of hostilities. When his attention was directed to this rumor, Secretary Alger promptly pronounced it to be without foundation, and as absurd. The publication of such stories, moreover, was deprecated as tending to encourage the Spanish government to further delay and passive resistance.

As a matter of fact, General Miles seems to be pressing forward with the greatest energy, and a cablegram received from him late yesterday reported the forward movement of General Schwan, in charge of one of the divisions of the American army, and Ernst's brigade is also advancing rapidly along the road to Alconite and has made what Miles described as a very important capture at Coamo.

Waiting the Arrival of the Monadnock. Merritt undoubtedly is pursuing his campaign in Luzon. It is stated positively that he is under no restraining orders, but is left entirely to his own discretion as to when and how to attack Manila. Inasmuch as it has been reported from Cavite that he was simply awaiting the arrival of the Monadnock, it is presumed this attack will soon follow, if it has not been made already, for the Monadnock is about due now at Cavite.

While not quite clear as to General Merritt's purpose in deferring his attack until the vessel arrives it is the opinion of the military officials that his plan is to plant the two monitors, Monterey and Monadnock, directly within range of the Manila batteries and if a demand for surrender is refused to batter down those defenses. Only fully armored vessels can be safely employed in such work, hence the delay on account of the nonarrival of the Monadnock.

Secretary Alger yesterday cabled to General Miles to apply immediately to the Porto Rican ports captured by him the tariff drawn up by the government for Santiago and other Cuban ports. This is in line with the policy of the war department of extending the American system of tariffs as rapidly as possible over captured territory.

SMOKELESS POWDER

Adapted For Use of the Springfield Rifle.

Washington, Aug. 12.—The ordnance department of the army has succeeded at last in securing a smokeless powder adapted for use in the Springfield rifle, with which nearly all the volunteer troops are armed. The powder used with the small bore and repeating rifles was too powerful and a special powder had to be procured. This is now coming in from the manufacturers and being turned into fixed ammunition in such quantities as to warrant the belief that even should war continue our soldiers would not be again exposed to the danger encountered at the battle of El Caney, through the betrayal of their presence by the blinding smoke of the Springfield.

Plenty of Good Water.

Washington, Aug. 12.—Colonel Miller of the quartermaster's department, who was at the department yesterday, reported that there would be no trouble at all about an abundant water supply at Montauk Point. He said that after passing through the hardpan in drilling wells they struck gravel and found an abundance of good water. Surgeon General Sternberg says there appears to be no trouble whatever about an abundance of water of good quality.

satisfaction throughout the fleet. It is expected that several war ships will soon be able to go north, and the great fleet now lying here is in readiness to be distributed to the various stations.

Bulletin From Miles. Washington, Aug. 12.—At 1 o'clock this morning the war department posted the following, dated Ponce, Aug. 11, from General Miles to the secretary of war: "Following from Schwan: 'Immediately after repulse yesterday Spanish troops, joined by what were left in Mayaguez, moved in direction of Laredo. Have sent scouts in that direction. My command entered Mayaguez at 9 o'clock this morning.'"

Doing a Grand Work. New York, Aug. 12.—The Red Cross society received the following telegram from Miss Clara Barton yesterday: "An sending 50 to 100 tons Cuban relief supplies to Barcelona today with general Shafter. Twenty tons go to Pinarra by rail. We are doing grand work. Santiago is nearly relieved; will leave for other ports soon."

Will Be Known as Camp Wikoff. Washington, Aug. 12.—Adjutant General Corbin announces that hereafter the designation of the camp at Montauk Point will be Camp Wikoff, in honor of Colonel Charles A. Wikoff of the Twenty-second United States Infantry, who was killed at the head of his brigade on the first of July at Santiago. This order was issued by direction of the president.

Off For Jacksonville. Indianapolis, Aug. 12.—The One Hundred and Sixty-first Indiana volunteers left yesterday for Jacksonville, Fla. They marched to the stationhouse from Camp Mount where the governor accompanied them previous to going aboard the train.

\$17,000 DAMAGES. Verdict Against Turnpike Company For Causing Death of a Young Girl.

Danville, Ky., Aug. 11.—J. J. Moore of Boyle county, who sued the Stanford Turnpike company for \$230,000 damages for causing the death of his 14-year-old daughter, got a verdict for \$17,000. The turnpike will carry the case through all the courts. The child was killed at the gate near Danville last winter while soldiers were guarding it and while she and her mother were passing.

Robert Beall Dead. Washington, Aug. 12.—Robert Beall, a book-seller known to nearly all public men and scholars who have lived in Washington, died here late yesterday, aged 61 years. He came of an old Maryland family and had been in the book-selling business from his youth until a short time ago, when he retired with a comfortable fortune, but seriously ill with consumption.

FRIDAY, AUGUST 12, 1898.

The actions of William Railing in the city offices this forenoon were such as to bring a vast amount of just criticism on himself. Such a course only adds to trouble already in store.

The democrats of Indianapolis are already looking for a candidate for mayor to succeed Taggart. Some of them who are against the 16 to 1 proposition, have suggested Capt. Will E. English.

The 161st Indiana got out of the state only a few hours before the word came that Spain had agreed to the terms of peace offered, yet they are none the less soldiers. The 161st is a splendid body of men.

Those five city commissioners so carefully selected by Judge Voyles because of their democracy show by their bill presented for services rendered relative to McDonald street that they are "out to their job".

The charges against one of the members of the fire company and read in open council last night calls for immediate and thorough investigation. Not only should the truth back of the charges be known, but a thorough understanding of all that has transpired leading up to this communication should be sifted and made known to the public.

The man who thinks he is running for congress against Speaker Reed has explained that he is not for 16 to 1, because free coinage on that basis would mean silver monometallism and a silver basis. He would have congress make a new ratio based upon the market value of the two metals. Two years ago Mr. Reed's opponent was advocating free coinage at the ratio of 16 to 1. Journal.

TERMS of peace have been agreed upon and the war is being speedily terminated. Many troops in the field have seen no fighting whatever, yet their soldierly qualities are none the less doubted. They have been restless in camp because of their anxiety to have a part in the real contest. Credit and honor is due every man who answered his country's call whether he has had an opportunity to fight or not. Indiana will do honor to her soldiers who have enlisted in this Spanish-American war.

LONG DISTANCE MAILS.

Time of Letters-From New York to Far-away Destinations.

A letter sent from New York to Bangkok, Siam, travels overland to San Francisco and thence by water, reaching its destination in about 43 days, having been carried nearly 13,000 miles. A letter mailed here for Adelaide, Australia, also goes via San Francisco, travels 12,845 miles and is delivered usually within 55 days. New York mail destined for Calcutta goes by way of London, traveling 11,130 miles in 29 days, while mail sent from this city to Cape Town, goes 125 miles farther in two days' less time.

Mail communication between New York and Hongkong ordinarily consumes one month of time. The letters go by way of San Francisco and cover 10,500 miles of distance. To reach Melbourne, Australia, from this city a letter will travel 12,265 miles in about 82 days, and to reach Sydney a letter will travel 11,570 miles in 81 days. The mail route from New York to Yokohama, via San Francisco, is 7,348 miles long, and about 22 days are consumed in transit. To go to Honolulu from this city a letter travels 5,648 miles in 18 days.

Leaving New York on steamer days, mail matter is scheduled to reach Rome in about ten days, Madrid in ten days, London and Liverpool in eight days, Rotterdam in nine days, St. Petersburg in 11 days, Vienna in nine days, Paris in eight days, Berlin in nine days and Athens and Alexandria in 14 days. Communication with South American ports is much slower. It takes 24 days for a letter to go from New York to Rio Janeiro, which is only about 50 miles farther from this city than is Alexandria. Mail matter going from New York to Buenos Ayres, which is 8,045 miles distant, consumes 29 or 30 days. —New York Times.

VEGETABLE GEMS.

Bamboo Opals and Coconut Pearls Found in the Philippines, Though Rarely.

Among other queer things found in the Philippines are vegetable gems. There are not many of them, though. The bamboo is empty normally. One might cut open a jungle of the giant grass and find unaltered hollowness. But once in a million times or more accident brings to light in the bamboo stem a gem. Nature has molded into a lump a little of the flinty material which makes the outer stem so hard. The nodules usually presents the appearance of an opal, and several specimens are in the museums which reproduce the characteristic lines of that gem. These nodules are known as tabacoe. It is interesting to note that the first chemical and mineralogical examination of them was made by the James Smithson whose munificence established the first of the scientific bureaus of the American government.

In the condition in which the fruit is known in the United States the milk in the coconut is considered its only content. The really ripe nut, however, is filled with a white spongy mass, rich in the finest oil which the nut produces. This sponge is exposed to the hot sun for two or three days in a wooden trough until thoroughly pulped. The last of the oil is then extracted by squeezing the soft sponge in the hands. Very rarely this careful handling has developed the presence of small spheres which have much of the luster of the pearl. Eight or ten of these coconut pearls, all discovered in the Philippines, are treasured in European museums. They range from the size of a pinhead to that of a very small pea.—New York Sun.

The English Flag.

England's national flag has been called "a triplet of crosses," for it is composed of the cross of St. George, the cross of St. Andrew and the cross of St. Patrick. Thus: The flag of "St. George for merrie England," a red cross on a white ground, the red lines drawn straight from top to bottom and from side to side; the flag of St. Andrew for Scotland, a white cross on a blue ground; the flag of St. Patrick for Ireland, a red cross on a white ground, the narrow red lines drawn from corner to corner. By placing the cross of St. George on that of St. Andrew we have "the Jack," as ordered in 1606 by James I, whose signature was always "Jacques"; hence the expression, "the Jack." By laying the cross of St. Patrick over that of St. Andrew and then placing that of St. George over both, we have "the union Jack," as borne since the union with Ireland in 1800.—Boston Transcript.

FRIDAY, AUGUST 12 1898.

Thy actions of William Railing in the city offices this forenoon were such as to bring a vast amount of just criticism on himself. Such a course only adds to trouble already in store.

The democrats of Indianapolis are already looking for a candidate for mayor to succeed Taggart. Some of them who are against the 16 to 1 proposition, have suggested Capt. Will E. English.

The 16 to 1 Indiana got out of the state only a few hours before the word came that Spain had agreed to the terms of peace offered, yet they are none the less soldiers. The 16 to 1 is a splendid body of men.

Those five city commissioners so carefully selected by Judge Voyles because of their democracy show by their bill presented for services rendered relative to McDonald street that they are "out of their job."

This charges against one of the members of the fire company and read in open council last night calls for immediate and thorough investigation. Not only should the truth back of the charges be known, but a thorough understanding of all that has transpired leading up to this communication should be sifted and made known to the public.

The man who thinks he is running for congress against Speaker Reed has explained that he is not for 16 to 1, because free coinage on that basis would mean silver monometallism and a silver basis. He would have congress make a new ratio based upon the market value of the two metals. Two years ago Mr. Reed's opponent was "advocating free coinage at the ratio of 16 to 1." Journal.

TERMS of peace have been agreed upon and the war is being speedily terminated. Many troops in the field have seen no fighting whatever, yet their soldierly qualities are none the less doubted. They have been restless in camp because of their anxiety to have a part in the real contest. Credit and honor is due every man who answered his country's call whether he has had an opportunity to fight or not. Indiana will do honor to her soldiers who have enlisted in this Spanish-American war.

The Sure LaGrippe Cure.

There is no use suffering from this dreadful malady, if you will only get the right remedy. You are having pains all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold in fact are completely used up. Electric Bitters is the only remedy that will give you prompt and sure relief. They act directly on your Liver, Stomach and Kidneys, tone up the whole system and make you feel like a new being. They are guaranteed to cure or price refunded. For sale at W. F. Peater's Drug Store, only 50 cents per bottle.

COURT NOTES.

The Robbins boys who were tried before Judge Hoover on the charge of stealing chickens were acquitted.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a "quick medicine." It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

McLREE'S Wine of Cardui

has demonstrated ten thousand times that it is almost infallible FOR WOMAN'S PECULIAR WEAKNESSES.

Irregularities and derangements. It has become the leading remedy for this class of troubles. It exerts a wonderfully healing, strengthening and soothing influence upon the menstrual organs. It cures "whites" and falling of the womb. It stops flooding and relieves suppressed and painful menstruation.

For Change of Life it is the best medicine made. It is beneficial during pregnancy and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another minute with certain relief within reach? Wine of Cardui only costs \$1.00 per bottle at your drug store.

For advice, on cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Rev. J. W. SMITH, Camden, S. C., says: "My wife used Wine of Cardui at home for falling of the womb and it entirely cured her."

LONG DISTANCE MAILS.

Time of Letters From New York to Far-away Destinations.

A letter sent from New York to Bangkok, Siam, travels overland to San Francisco and thence by water, reaching its destination in about 43 days, having been carried nearly 13,000 miles. A letter mailed here for Adelaide, Australia, also goes via San Francisco, travels 12,845 miles and is delivered usually within 35 days. New York mail destined for Calcutta goes by way of London, traveling 11,120 miles in 29 days, while mail sent from this city to Cape Town, goes 125 miles farther in two days' less time.

Mail communication between New York and Hongkong ordinarily consumes one month of time. The letters go by way of San Francisco and cover 10,500 miles of distance. To reach Melbourne, Australia, from this city a letter will travel 12,265 miles in about 32 days, and to reach Sydney a letter will travel 11,570 miles in 31 days. The mail route from New York to Yokohama, via San Francisco, is 7,348 miles long, and about 22 days are consumed in transit. To go to Honolulu from this city a letter travels 5,648 miles in 18 days.

Leaving New York on steamers, mail matter is scheduled to reach Rome in about ten days, Madrid in ten days, London and Liverpool in eight days, Rotterdam in nine days, St. Petersburg in 11 days, Vienna in nine days, Paris in eight days, Berlin in nine days and Athens and Alexandria in 14 days. Communication with South American ports is much slower. It takes 24 days for a letter to go from New York to Rio Janeiro, which is only about 50 miles farther from this city than is Alexandria. Mail matter going from New York to Buenos Ayres, which is 8,045 miles distant, consumes 29 or 30 days. —New York Times.

VEGETABLE GEMS.

Bamboo Opals and Coconut Pearls Found in the Philippines, Though Rarely.

Among other queer things found in the Philippines are vegetable gems. There are not many of them, though. The bamboo is empty normally. One might cut open a jungle of the giant grass and find unaltered hollowness. But once in a million times or more accident brings to light in the bamboo stem a gem. Nature has molded into a lump a little of the flinty material which makes the outer stem so hard. The nodules usually presents the appearance of an opal, and several specimens are in the museums which reproduce the characteristic lines of that gem. These nodules are known as talaccer. It is interesting to note that the first chemical and mineralogical examination of them was made by the James Smithson whose munificence established the first of the scientific bureaus of the American government.

In the condition in which the fruit is known in the United States the milk in the coconut is considered its only content. The really ripe nut, however, is filled with a white spongy mass, rich in the finest oil which the nut produces. This spongy mass is exposed to the hot sun for two or three days in a wooden trough until thoroughly pulped. The last of the oil is then extracted by squeezing the soft sponge in the hands. Very rarely this careful handling has developed the presence of small spheres which have much of the luster of the pearl. Eight or ten of these coconut pearls, all discovered in the Philippines, are treasured in European museums. They range from the size of a pinhead to that of a very small pea. —New York Sun.

The English Flag.

England's national flag has been called "a triquet of crosses," for it is composed of the cross of St. George, the cross of St. Andrew and the cross of St. Patrick. Thus the flag of "St. George for merrie England," a red cross on a white ground, the red lines drawn straight from top to bottom and from side to side; the flag of St. Andrew for Scotland, a white cross on a blue ground; the flag of St. Patrick for Ireland, a red cross on a white ground, the narrow red lines drawn from corner to corner. By placing the cross of St. George over that of St. Andrew and then placing that of St. George over both, we have "the union jack," as borne since the union with Ireland in 1800. —Boston Transcript.

1865. 1898. Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says: "J. C. Ayer & Co., of Lowell, Mass., have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative. The civil war was ended over 33 years ago. These goods have been on the market for a long while! And 'there are others!'

Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

WAR ENDS TODAY.

PEACE PROTOCOL HAS BEEN APPROVED BY THE SPANISH GOVERNMENT.

Conflict Lasted Just 113 Days. Commanders in the Field to be Notified at Once—Movement of Troops to the Philippines.

The Spanish government has approved the peace protocol and Ambassador Cambon has received authority to sign the document. He will fix his signature this morning and the war will be brought to an end after lasting 113 days. For once Spain did not delay matters, the protocol being approved just as soon as the official copy arrived in Madrid, the Cabinet having become acquainted with its provisions beforehand through the French Foreign office. It is said, however, that Spain has raised some new points which McKinley is inclined to consider.

Orders to suspend hostilities will be sent at once to all commanders in the field. The end of hostilities finds Gen. Miles' troops resting at Cosmo, twenty miles from Ponce, while his engineers have been repairing bridges for an advance against the Spanish force concentrated at Alibonito, a few miles away on the military road. Gen. Hains is north of Guayma and will be halted in his advance to cut off the Spaniards at Alibonito. Gen. Henry will be checked near Arecibo and Gen. Schwan will be halted in his march by another route upon the same point.

The signing of the peace protocol will not stop the dispatch of troops to the Philippines. Over three thousand men will go next week and as many more will be shipped as soon as transports can be secured.

The arrangement for the reception of Shafter's army at Camp Wiko fi Moutauk Point are still very incomplete, and the camp, which is described as a dreary place at best is in a state of almost hopeless confusion. The officer now on the ground bitterly condemn the selection as an outrage and are unstinted in their criticism of the War Department.

One Hundred Tickets Sold.

Wheat Supply.

The Orange Judd farmer says the spring wheat condition is 87.3 against 95.9 and is now about the same as in 1897 that the winter wheat crop will be about 400,000,000 bushel from an output of 15.7 bushel per acre. Many millers in the winter wheat belt inform us that they do not think the winter wheat crop will exceed 300,000,000 bushel, especially so if the output of flour is considered. Last year's crop was given out as 352,000,000 bushels.

B. and L. Cases To-Day.

The State Board of Tax Commissioners hopes to complete the hearing of appeals from county boards of review today. The reconsideration of corporation assessments will begin next Tuesday. Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says:

"J. C. Ayer & Co., of Lowell, Mass., have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.

The civil war was ended over 33 years ago. These goods have been on the market for a long while! And "there are others!"

Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

PEACE PROTOCOL HAS BEEN APPROVED BY THE SPANISH GOVERNMENT.

Conflict Lasted Just 113 Days.
Commanders in the Field to be
Notified at Once—Move-
ment of Troops to the
Philippines.

The Spanish government has approved the peace protocol and Ambassador Cambon has received authority to sign the document. He will fix his signature this morning and the war will be brought to an end after lasting 113 days. For once Spain did not delay matters, the protocol being approved just as soon as the official copy arrived in Madrid, the Cabinet having become acquainted with its provisions beforehand through the French Foreign office. It is said, however, that Spain has raised some new points which McKinley is inclined to consider.

Orders to suspend hostilities will be sent at once to all commanders in the field. The end of hostilities finds Gen. Miles' troops resting at Coamo, twenty miles from Ponce, while his engineers have been repairing bridges for an advance against the Spanish force concentrated at Aibonito, a few miles away on the military road. CITY COUNCIL.

A Long Drawn Out Session of the "City Dads."

City council met in regular session last night, councilman DeGolyer absent. Minutes read and approved.

Dr. Shields reported that the judiciary committee desired more time relative to the matter of alleged claim of Mrs. Rosa Jerrell against the city for damages. Granted.

Councilman Miller stated that the fire department needed a ladder long enough to reach to the top of a three story building and moved that such a ladder be purchased, recommending a ladder approved by the chief of fire department. On motion of Gibson the clerk was directed to correspond with different firms relative to the purchase of such a ladder.

A communication from L. H. Balsley, attested by E. O. Krueger, Peter Sensback and other members of the fire department, charging William Railing with unbecoming conduct as a fireman, was read. Communication referred to fire committee to investigate and report to council.

The treasurer's report for the month of July was read, showing disbursements for the month to the amount of \$2,800.64 and a balance on hand August 1, of \$6,859.02.

City engineer reported that Largent & Railing had completed sewer on Second and Ewing streets as per specifications. Total cost \$222.88. City's part \$117.88. Report adopted.

Engineer reported that John Wikel had completed grading and graveling West Tipton street according to contract. Total cost \$91.24. Report adopted.

The city commissioners made another report on the matter of opening McDonald street, together with estimated benefits and damages to abutting property.

Remonstrance against the opening of the above named street was read. Remonstrance, was signed by about twenty-five property owners along the line. A number of individual protests were read. After considerable discussion the prayer of the remonstrators was granted and the report of the commissioners ordered filed and their bill for services referred to committee on accounts and claims.

Claims amounting to \$417.86 were allowed which amount includes \$86.14 for street work and \$250 to David O. Harris, the latter on the order of the Capital Paving and Construction Company.

Gibson offered a resolution requiring the B. & O. S. railroad to put a watchman at the point where their track crosses High street near the Blish Milling plant. Adopted.

Miller offered a resolution for the improvement of some side walks on South Chestnut and South Walnut street, which were adopted.

Miller offered an ordinance for the numbering of houses in the city and for the putting up of names of streets. Read first time.

Quite an amount of miscellaneous business was brought before the council and disposed of.

Many People Cannot Drink

Coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect drink. Made from pure grains. Get a package from your grocer to try it in place of coffee. 25c.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we have found it to be efficacious and in croup and whooping cough in children we deem it indispensable.—H. P. Ritter 9126 Fairfax ave., St. Louis' Mo. For sale by C. W. Milhous.

BORN.

A daughter was born to George Shelton and wife, of Brownstown, Thursday August 11, 1898.

A son was born to A. D. Winston and wife, of Grassfork, Thursday August 11, 1898.

About one month ago my child which is fifteen months old had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumpdown, Gilmer Co., W. Va. For sale by C. W. Milhous.

MILITARY SCIENCE.

Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.

It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, greater utilization of the bicycle and the extended use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth such as used to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns. A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needful logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.

The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading. In effect it does its own loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim surer.

As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine. The only comparatively weak part of the automatic gun lies in its springs, but, as they have been found after tests made in Austria to withstand the wear and tear of from 10,000 to 14,000 discharges, this does not count for much.—New York Sun.

INDIANA'S NEW INDUSTRY

Hundreds of Men and Boys Catching Crawfish For the Chicago Market—Evansville Aerial Navigation Company. Pensions Granted—Discrepancies in His Books—New Gas Gusher.

Princeton, Ind., Aug. 12.—Mrs. Harry Jamison went to the saloon of Adolph Schulze and with a drawn revolver demanded that Schulze go with her to her home and pledge himself before her husband and sons never to sell them intoxicants again. Schulze fled in terror and Mrs. Jamison locked the saloon door and proceeded to stand guard over the place until her enemy came back. Officers forced the door open and placed the woman under arrest. She fought madly and declares she will kill the officers who arrested her.

LOBSTERS OF THE WEST.

Crawfish Industry in Northwestern Indiana.

Hammond, Ind., Aug. 12.—The lobsters of the west—crawfish—were probably never more plentiful in the streams of northwestern Indiana than at the present time, and hundreds of men and boys are now engaged in catching them for the Chicago markets, where they bring from 5 to 10 cents a dozen. It is even better sport for the lazy man than shooting frogs. It is also more profitable. One man can attend to half a dozen lines, and the outlay for tackle need not be over 30 cents. The "craws" in northern Indiana are superior in flavor to their salt water cousins. Catches of from 300 to 400 a day are reported by "pot hunters" operating along the banks of the Calumet river and the small lakes in this vicinity.

AERIAL NAVIGATION.

Evansville Company Organized to Manufacture Airships.

Indianapolis, Aug. 12.—Evansville citizens, headed by J. T. Beeler, filed with the secretary of state yesterday articles incorporating the improved Aerial Navigation company. The company, it is announced, proposes to manufacture and sell airships. The capital stock is \$10,000. Recently an Evansville man invented an airship, and this company will undertake the manufacture of such ships.

Discrepancies in His Books.

Ft. Wayne, Ind., Aug. 12.—Revenue Collector Nowlin of Lawrenceburg, yesterday removed Frank Gibson, the recently appointed deputy collector at this point, and placed T. Martin of North Manchester in charge, temporarily. Discrepancies in Gibson's books caused the change. These are attributed to poor bookkeeping, not to fraud.

Shelburn Mine Fire.

Shelburn, Ind., Aug. 12.—The fire caused by a gas explosion in the Shelburn mine last Tuesday week, which burned steadily, is now under control and the company will begin pushing work at once. The damage is considerable, as the fire caused the main entry to cave in for many yards in length.

Used His Gun as a Club.

Hartford City, Ind., Aug. 12.—Five unknown men attempted to force their way into John O. Conrad's home, but he met them with a gun, which he used as a club. In the darkness the intruders were seen carrying one of their number away, and he is thought to have been badly hurt.

Required Fifty \$50 Stamps.

Ft. Wayne, Ind., Aug. 12.—The transfer of the Bass works in this city to the new Foundry and Machine company was completed yesterday, and in effecting the transfer \$2,500 in war revenue stamps were used on the documents. They were 50 stamps of \$50 each.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

APPROVED

The Spanish Cabinet Council Takes Favorable Action Upon the Protocol.

CAMBON INSTRUCTED

To Sign the Document Which Will Bring Peace.

SPANIARDS ACT QUICKLY

After Receiving McKinley's Last Note.

Duke Almodovar Says the Peace Commission Will Sit in Paris—Practically No Changes in the Original Condition For Peace—Hostilities Are Expected to Cease as Soon as the Document Is Signed—The American Fleet Off Guantanamo Hears the News With Intense Satisfaction.

Madrid, Aug. 12.—The government received the protocol late last night and the cabinet council met immediately and approved it. The government then wired M. Cambon, empowering him to sign the preliminaries of peace.

Yesterday was diplomatically one of the busiest since the outbreak of the war. There were no fewer than three cabinet councils, in addition to various diplomatic conferences.

Though the text of the protocol was not received until the evening was well advanced, the government had been made fully acquainted with its contents through Paris.

The matter was practically settled at the meeting yesterday afternoon, and the receipt of the actual document, therefore, only required a meeting of the cabinet for a formal acceptance.

Ministers adhere to the statement that the protocol contains no modification of the original terms, but only new suggestions.

They expect it will be signed at Washington today and that a suspension of hostilities will be announced.

Duke Almodovar Rio, minister of foreign affairs, says that the negotiations for the peace treaty will take place in Paris, but he says the commissioners have not yet been appointed. The terms of the protocol will not be published until the instrument has been signed.

Premier Sagasta and the French ambassador, M. Patenotre, had a long conference last evening and it is believed the ambassador has been authorized to cable the French ambassador at Washington, M. Cambon, authority to sign the peace protocol.

ARMISTICE.

The First Conditions of the Protocol, Which Is Declared Immediately.

London, Aug. 12.—The Madrid correspondence of The Daily Mail says: "Although it is denied by the government, it is reported that there is a Carlist armed band now near Soe de Urgel, among the Pyrenees, and that there are three others in the region of Maortrago. All are in small parties, but large enough to cause considerable agitation in the regions named, which are largely Carlist in their sympathies."

What nobler, better ambition can a young couple have than to live loving, helpful lives, and then, in a green old age, look back over a life that has been mutually self-sacrificing, useful and successful? The one great stumbling-block that stands between most married couples and this ideal married career is ill-health. If both husband and wife would take proper care of their health, there would be more hale, hearty and happy old people in the world. If, when a man suffers from the little ills of life, he will resort to Dr. Pierce's Golden Medical Discovery, the chances are that he will avoid the big and fatal illnesses. This great medicine gives a man a healthy hunger, facilitates the flow of digestive juices, invigorates the liver, purifies and enriches the blood and builds firm, muscular, healthy flesh tissue.

It is an old saying that women are hard to kill. There is some truth in this, as far as the majority of illnesses are concerned. There is one class of disorders, however, that quickly undermine any woman's general health. No woman can retain her strength who suffers from weakness and disease of the delicate and important organs that make wifehood and motherhood possible. Dr. Pierce's Favorite Prescription is an unfailing cure for all disorders of this description. It acts directly on the sensitive organs concerned, in a natural, soothing way. It makes them strong, healthy and vigorous. It prepares them so that they will bear healthy, happy children, and live to a ripe old age. Dr. Pierce's Pleasant Pellets regulate and invigorate the stomach, liver and bowels. By all medicine dealers.

spontaneous of The Daily Mail says: "President McKinley accepts the Spanish reply, with slight formal modifications. The first condition of the protocol is an armistice. This will be declared immediately. The conditions are the same as those proposed by President McKinley. Senor Sagasta has cabled M. Cambon an authorization to sign the protocol to which step the queen regent had already given assent."

"The disposition of the Philippines will be the chief point for consideration, and on this the precise intentions of the American government are not known. 'The impression prevails here, however, that the powers will not regard the problem of the Philippines with the same passivity as they showed towards Cuba and Porto Rico."

"The American and Spanish delegates will meet immediately in Paris, the cabinet at Washington urging expedition."

M'KINLEY'S SHORT REPLY

To Spain's Last Note Gave Notice of a More Lengthy One to Follow.

London, Aug. 12.—The Madrid correspondence of The Times says: "The preliminary negotiations are advancing steadily, though perhaps not quite so quickly as could be wished. The short reply from Washington to the last Spanish note, which reached Madrid last evening, must be regarded as merely a forerunner of a more detailed communication that may be expected in the course of the next few days. It says the president will take into consideration all the points raised in the last Spanish note and will embody the conditions as a whole in a formal document, the text of which will be telegraphed to Madrid for acceptance with the least delay possible. Until this latter communication is received it will be impossible to say whether the cortes will be assembled at once or at the close of the negotiations."

PREPARING TO MOVE.

Generals McKee and Sanger Go to Knoxville and Lexington, Respectively.

Chickamauga Park, Ga., Aug. 12.—The principal order received at Camp Thomas yesterday was one directing Brigadier General McKee and Brigadier General Sanger to proceed at once to the new camp grounds selected for the encampment of the Second and Third divisions of the First corps, respectively. General McKee, commanding the Second division, was ordered to Knoxville, Tenn., and General Sanger, commanding the Third division, was ordered to Lexington, Ky.

General McKee left last evening, while General Sanger expects to leave today. These officers were instructed to arrange all preliminaries at the respective camp grounds for an early movement. It will perhaps be 10 days before any of the regiments are ordered out. It will be decided in the meantime whether the troops will be sent to these points by rail or be required to march the whole of the distance.

General Breckenridge is desirous of having the regiments march the whole of the way. General McKee's division would have to march only about 120 miles, while General Sanger's division would be confronted by a march of about 300 or 350 miles.

PEACE COMMISSION.

Secretary Day and Probably Allison and Gorman Will Be Members.

Washington, Aug. 12.—The near approach to the signing of the protocol has required the discussion of the personnel of the peace commission. There is good authority for the statement that Secretary Day will be at the head of the commission and that two United States senators will be members of it.

Senator Allison of Iowa and Senator Gorman of Maryland, have been prominently mentioned for places on the commission, and it is known that they have been under consideration by the president.

It is not believed by members of the administration that the commission can complete its work in time to cause an extra session of congress to consider legislation, which the treaty of peace will necessitate, although there is a prospect that an extra session of the senate might be called in November to consider the treaty of peace.

CARLISTS

Are Appearing in Armed Bands Near Soe de Urgel, Spain.

London, Aug. 12.—The Biarritz correspondence of The Daily Mail says: "Although it is denied by the government, it is reported that there is a Carlist armed band now near Soe de Urgel, among the Pyrenees, and that there are three others in the region of Maortrago. All are in small parties, but large enough to cause considerable agitation in the regions named, which are largely Carlist in their sympathies."

"Sixteen soldiers of the Basclera garrison have been arrested in a Carlist club there, and an infantry colonel has been nominated to initiate proceedings against them."

"The chief Carlists in Barcelona disappeared three days ago, their destination being unknown."

INTENSE SATISFACTION.

Peace News Received by the Fleet Off Guantanamo.

With the fleet off Guantanamo, via Playa del Este, Aug. 12.—The Press dispatch announcing that the peace protocol had been agreed upon was the first definite news received here regarding the progress of the peace negotiations. Nothing had been received from the navy department or from any other source.

The dispatch caused the most intense

satisfaction throughout the fleet. It is expected that several war ships will soon be able to go north, and the great fleet now lying here is in readiness to be distributed to the various stations.

Bulletin From Miles.

Washington, Aug. 12.—At 1 o'clock this morning the war department posted the following, dated Ponce, Aug. 11, from General Miles to the secretary of war: "Following from Schwan: 'Immediately after repulse yesterday Spanish troops, joined by what were left in Mayaguez, moved in direction of Laredo. Have sent scouts in that direction. My command entered Mayaguez at 9 o'clock this morning.'"

Doing a Grand Work.

New York, Aug. 12.—The Red Cross society received the following telegram from Miss Clara Barton yesterday: "Am sending 50 to 100 tons Cuban relief supplies to Baracoa today with troops on steamer San Juan, by courtesy of General Shafter. Twenty tons go to Pinarra by rail. We are doing grand work. Santiago is nearly relieved; will leave for other ports soon."

Will Be Known as Camp Wikoff.

Washington, Aug. 12.—Adjutant General Corbin announces that hereafter the designation of the camp at Montauk Point will be Camp Wikoff, in honor of Colonel Charles A. Wikoff of the Twenty-second United States Infantry, who was killed at the head of his brigade on the first of July at Santiago. This order was issued by direction of the president.

OF FOR JACKSONVILLE.

Indianapolis, Aug. 12.—The One Hundred and Sixty-first Indiana volunteers left yesterday for Jacksonville, Fla. They marched to the statehouse from Camp Mount where the governor addressed them previous to going aboard the train.

\$17,000 DAMAGES.

Verdict Against Turpin Company For Causing Death of a Young Girl.

Danville, Ky., Aug. 11.—J. J. Moore of Boyle county, who sued the Stanford Turpin company for \$200,000 damages for causing the death of his 14-year-old daughter, got a verdict for \$17,000. The turpin will carry the case through all the courts. The child was killed at the gate near Danville last winter while soldiers were guarding it and while she and her mother were passing.

Robert Beall Dead.

Washington, Aug. 12.—Robert Beall, a book-seller known to nearly all public men and scholars who have lived in Washington, died here late yesterday, aged 61 years. He came of an old Maryland family and had been in the book-selling business from his youth until a short time ago, when he retired with a comfortable fortune, but seriously ill with consumption.

FRIDAY, AUGUST 12 1898.

The actions of William Railing in the city offices this forenoon were such as to bring a vast amount of just criticism on himself. Such a course only adds to trouble already in store.

The democrats of Indianapolis are already looking for a candidate for mayor to succeed Taggart. Some of them who are against the 16 to 1 proposition, have suggested Capt. Will E. English.

The 16th Indiana got out of the state only a few hours before the word came that Spain had agreed to the terms of peace offered, yet they are none the less soldiers. The 16th is a splendid body of men.

Those five city commissioners so carefully selected by Judge Voytes because of their democracy show by their bill presented for services rendered relative to McDonald street that they are "out to their job".

The charges against one of the members of the fire company and read in open council last night calls for immediate and thorough investigation. Not only should the truth back of the charges be known, but a thorough understanding of all that has transpired leading up to this communication, should be sifted and made known to the public.

The man who thinks he is running for congress against Speaker Reed has explained that he is not for 16 to 1, because free coinage on that basis would mean silver monometallism and a silver basis. He would have congress make a new ratio based upon the market value of the two metals. Two years ago Mr. Reed's opponent was advocating free coinage at the ratio of 16 to 1. Journal.

TERMS of peace have been agreed upon and the war is being speedily terminated. Many troops in the field have seen no fighting whatever, yet their soldierly qualities are none the less doubted. They have been restless in camp because of their anxiety to have a part in the real contest. Credit and honor is due every man who answered his country's call whether he has had an opportunity to fight or not. Indiana will do honor to her soldiers who have enlisted in this Spanish-American war.

McELREY'S Wine of Cardui

has demonstrated ten thousand times that it is almost infallible

FOR WOMAN'S PECULIAR WEAKNESSES,

Irregularities and derangements. It has become the leading remedy for the ailments of women. It cures a wonderfully healing, strengthening and soothing influence upon the menstrual organs. It cures "whites" and falling of the womb. It stops flooding and relieves sup-

pressed and painful menstruation. For Change of Life it is the best medicine made. It is beneficial during pregnancy, and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another minute with certain relief within reach? Wine of Cardui only costs \$1.00 per bottle at your drug store.

For advice, in cases requiring special directions, address giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Rev. J. W. SMITH, Camden, S. C., says: "My wife used Wine of Cardui at home for falling of the womb and it entirely cured her."

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about much as coffee. 15 and 25c.

VEGETABLE GEMS.

Bamboo Opals and Coconut Pearls Found in the Philippines, Though Rarely.

Among other queer things found in the Philippines are vegetable gems. There are not many of them, though. The bamboo is empty normally. One might cut open a jungle of the giant grass and find unaltered hollowness. But once in a million times or more accident brings to light in the bamboo stem a gem. Nature has molded into a lump a little of the flinty material which makes the outer stem so hard. The nodules usually presents the appearance of an opal, and several specimens are in the museums which reproduce the characteristic lines of that gem. These nodules are known as tabacac. It is interesting to note that the first chemical and mineralogical examination of them was made by the James Smithson whose munificence established the first of the scientific bureaus of the American government.

In the condition in which the fruit is known in the United States the milk in the coconut is considered its only content. The really ripe nut, however, is filled with a white spongy mass, rich in the finest oil which the nut produces. This sponge is exposed to the hot sun for two or three days in a wooden trough until thoroughly pulped. The last of the oil is then extracted by squeezing the soft sponge in the hands. Very rarely this careful handling has developed the presence of small spheres which have much of the luster of the pearl. Eight or ten of these coconut pearls, all discovered in the Philippines, are treasured in European museums. They range from the size of a pinhead to that of a very small pea.—New York Sun.

The English Flag.

England's national flag has been called "a triplet of crosses," for it is composed of the cross of St. George, the cross of St. Andrew and the cross of St. Patrick. Thus: The flag of "St. George for merrie England," a red cross on a white ground, the red lines drawn straight from top to bottom and from side to side; the flag of St. Andrew for Scotland, a white cross on a blue ground; the flag of St. Patrick for Ireland, a red cross on a white ground, the narrow red lines drawn from corner to corner. By placing the cross of St. George on that of St. Andrew we have "the Jack," as ordered in 1606 by James I, whose signature was always "Jaques"; hence the expression, "the Jack." By laying the cross of St. Patrick over that of St. Andrew and then placing that of St. George over both, we have "the union jack," as borne since the union with Ireland in 1800.—Boston Transcript.

Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says: "J. C. Ayer & Co., of Lowell, Mass., have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.

The civil war was ended over 33 years ago. These goods have been on the market for a long while! And there are others!

Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

WAR ENDS TODAY.

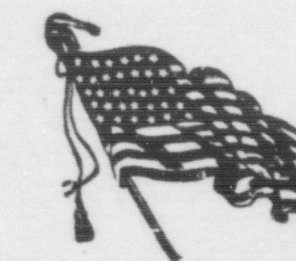

PEACE PROTOCOL HAS BEEN APPROVED BY THE SPANISH GOVERNMENT.

Conflict Lasted Just 113 Days. Commanders in the Field to be Notified at Once—Movement of Troops to the Philippines.

The Spanish government has approved the peace protocol and Ambassador Cambon has received authority to sign the document. He will fix his signature this morning and the war will be brought to an end after lasting 113 days. For once Spain did not delay matters, the protocol being approved just as soon as the official copy arrived in Madrid, the Cabinet having become acquainted with its provisions before band through the French Foreign office. It is said, however, that Spain has raised some new points which McKinley is inclined to consider.

Orders to suspend hostilities will be sent at once to all commanders in the field. The end of hostilities finds Gen. Miles' troops resting at Coamo, twenty miles from Ponce, while his engineers have been repairing bridges for an advance against the Spanish force concentrated at Aibonito, a few miles away on the military road. Gen. Hains is north of Guayama and will be halted in his advance to cut off the Spaniards at Aibonito. Gen. Henry will be checked near Arecibo and Gen. Schwan will be halted in his march by another route upon the same point.

The signing of the peace protocol will not stop the dispatch of troops to the Philippines. Over three thousand men will go next week and as many more will be shipped as soon as transports can be secured.

The arrangement for the reception of Shafter's army at Camp Wikefi Montauk Point are still very incomplete, and the camp, which is described as a dreary place at best is in a state of almost hopeless confusion. The officer now on the ground bitterly condemn the selection as an outrage and are undisturbed in their criticism of the War Department.

One Hundred Tickets Sold.

Agent Williams and his assistants sold 100 tickets this morning to parties going to Columbus. The Uniform Rank went and will, of course, attract much attention during the day, this being Pythian day at the fair. The boys will give an exhibition drill. Columbus fair is being very well patronized by Seymour people.

A. L. Menden, of Franklin, Ky., is the guest of his brother, A. N., and family.

DIED.

Mrs. Will Sullivan an esteemed lady, of Medora died very suddenly at 3 o'clock Thursday morning, August 11, 1898, from bursting a blood vessel, aged twenty-two years.

Mrs. Maggie Easton, of Elwood, who went to Medora, her late home two weeks ago died Monday, August 8, 1898 with consumption aged about thirty two years.

James Steinberger, a respected Christian gentleman, died at noon Thursday August 11, 1898, with typhoid fever aged twenty-six years. Deceased was section foreman of the Southern Indiana at Heltonville where he contracted his sickness. He was brought to his home here where everything possible was done for him. He leaves a wife and one child who with other relatives have the tender sympathy of their host of friends. The funeral will take place from the Christian church, of which he was a member, at 2 o'clock tomorrow. Burial in Riverview cemetery.

Balsley's auction sale of lots tomorrow. A chance for good investment.

Our clearance sale has somewhat broken our assortment but what we lack in this respect we make up for in prices. We are not going to carry over any colored goods. With almost three months to wear them it will pay you to investigate our prices.

RAILROAD RUMBLINGS

Wrecking Master Samuel Hodapp, received a coon dog from Kentucky which he claims is the best coon dog in Southern Indiana. His name is Dewey.

Mrs. William T. Wilson, of Vallonia after a nice visit to her father-in-law J. B. Wilson of Jeffersonville, returned home this forenoon accompanied by her sister-in-law Miss Mary Wilson.

A Narrow Escape

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, I determined if I could not stay with my friends on earth, I could meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs, and Colds. I gave it a trial, took in all eight bottles. It has cured me and thank God I am saved and now a well and healthy." Trial bottles at W. F. Peters Drug Store. Regular size 50c and \$1.00 Guaranteed or price refunded.

Band Concert.

The Bedford Premier Band will give a concert at Indian Springs Sunday afternoon August 14th. Excursion train will leave Southern Indiana depot 8.30 a. m. 75 cents round trip. You should not miss this excursion. Musical entertainment and spend the day at beautiful Indian Springs. The John Hamilton martial band will head the Seymour delegation.

Wheat Supply.

The Orange Judd farmer says the spring wheat condition is 87.3 against 95.9 and is now about the same as in 1897 that the winter wheat crop will be about 400,000,000 bushel from an output of 15.7 bushel per acre. Many millers in the winter wheat belt inform us that they do not think the winter wheat crop will exceed 300,000,000 bushel, especially so if the output of flour is considered. Last year's crop was given out as 352,000,000 bushels.

B. and L. Cases To-Day.

The State Board of Tax Commissioners hopes to complete the hearing of appeals from county boards of review today. The reconsideration of corporation assessments will begin next Tuesday. Some of the railroads companies will ask for rehearings. Yesterday morning appeals were heard from Howard county and Shelby county. To-day the building and loan association cases will be heard, as well as the Sullivan county mining companies.

Mrs. Amanda Clayton of Louisville, came here this morning to visit her daughter, Mrs. Bud Pomeroy and family.
